

Redcliffe & Temple BID: Sustainability Commitment 2022-2025

In line with the Redcliffe & Temple BID business plan objective, we are committed to supporting businesses become more sustainable, reduce their impact on the environment and embrace national and global sustainable development agendas: Bristol's One City Plan and the UN Sustainable Development Goals (UN SDGs).

As part of this, we will promote principles, practices and behaviours that will foster long term sustainable performance and value by delivering initiatives that encourage a responsible business community.

We have reviewed and selected six Sustainable Development Goals (SDGs) that are the most relevant as part of addressing the sustainability challenges for our business community.

1. SDG13 - Climate Action
2. SDG3 - Good Health and Wellbeing
3. SDG12 - Responsible Consumption and Production
4. SDG8 - Decent Work and Economic Growth
5. SDG11 - Sustainable Cities and Communities
6. SDG 4 - Quality Education

By using the Sustainable Development Goals to chart our efforts, we are committing to:

- Supporting our businesses to reduce waste, take advantage of energy efficiencies and encourage a cyclical approach to evaluating sustainable improvement
- Plan and execute initiatives that will promote responsible business activities and behaviours in the Redcliffe and Temple area
- Improve health and wellbeing in the public realm via partnerships and collaboration
- Supporting Redcliffe & Temple BID businesses to reinforce purposes and values that align with the Triple-Bottom Line principles of People, Planet and Profit
